DETAILED ACTION

1. The application has been thoroughly reviewed. The previous action stated that applicant must show diligence for the time periods of between 18 September 2002 and 26 September 2002, and between 26 September and 02 October 2002. This is not correct. Please refer to the action below, for further discussion of the diligence required.

Election/Restrictions

2. Claims 7, 8 and 10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 20 January 2005.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1-6 and 9 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, 35 U.S.C. 103(a) as being unpatentable over Allison et al, US 20040102137A1 in view of Applicant's admitted prior art, as set forth in the Office action mailed 31 March 2005.

Response to Amendment

7. The affidavit filed on 05 July 2005 under 37 CFR 1.68 (considered to be filed under 37 CFR 1.131) has been considered but is ineffective to overcome the Allison reference.

8. The evidence submitted is insufficient to establish diligence from a date prior to the date of reduction to practice of the Allison reference to either a constructive reduction to practice or an actual reduction to practice. Applicant must show evidence of due diligence between the filing of the invention disclosure on 09 October 2002 with the Rohm and Hass Electronic Materials CMP Inc., law department, and the filing of the patent application 26 September 2003. Applicant may establish a constructive

reduction to practice by providing the Office with a copy of the invention disclosure.

Please refer to MPEP 715.01(d). and 715.07(a).

Response to Arguments

9. Applicant's arguments filed 05 July 2005 have been fully considered but they are not persuasive. Please refer to the discussion of the affidavit above.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
